

Report Immigrant Abuse!

Immigrant Defenders want to hear your case of...

- Abuse or mistreatment at the hands of immigration agents
- Family separation caused by deportations
- Car impounds caused by checkpoints and traffic stops.

We know that there are cases of abuse at the hands of immigration agents. The majority of deportations result in the separation of families. Checkpoints cause the loss of vehicles, loss of workdays and they affect children's attendance in school. These are abuses and they need to be reported. Your testimonies could make changes.
